WORK EXPERIENCE

Visa India | Agentic AI, Python, MCP, Spring Boot, JDK 17, Angular 20, MySQL

Apr 2025 - Present, Bengaluru

Senior Consultant/Senior Manager

- Led and architected migration of fat monolith application to microservices which improved operational efficiency with respect to CI/CD workflow and container orchestration.
- Championed to adopt Cline an AI agent tool, GitHub Copilot which improved the coding efficiency and productivity by 50% across all the products.
- Led and developed an MCP server for the backend GET APIs to help business team converse with Billing rules data via agentic tools.
- Engineered a production-grade 'ClickHouse Analytics Agent' that translates natural language business questions into optimized, highly complex ClickHouse SQL queries.
- Pioneered billing rule modernization effort which was well received by the product owners as it improved business efficiency to bill the clients on time which improved client billing revenue by 25%.
- Led weekly SOS meetings, managed, co-ordinated and collaborated Account Level Management(ALM) project that spanned multiple global teams, balanced resources and task assignments, worked with product management and engineering team to determine the MVP release scope.
- Strong engineering chops combined with hands-on and proven management skills gained by successfully building engineering teams, hiring, empowering, mentoring and retaining talent, managing multiple projects, designing and delivering innovative products.
- Led ALM (Account Lifecycle Management) Platform team which manages the full life cycle of cardholder accounts, specializing in optimizing card economics, tier progression, and retention strategies.

Candescent FKA NCR Corporation | Spring Boot, JDK 17, React, Postgres, Redis

Sep 2020 - Apr 2025, Bengaluru

Software Engineer 4/Lead Engineer

- Spearheaded the architecture of a microservices-based banking application which got deployed to GKE with an increased throughput by 25%.
- Implemented dynamic front end react components with reusable code and added form preview functionality which increased customer satisfaction score by 25%.
- Mentored 8+ developers across three agile teams, improving code quality and reducing defects by 30% .

Lowe's India | Spring Boot, Google Cloud Spanner, JDK 1.8, Angular JS, DB2

Mar 2015 - Sep 2020, Bengaluru

Senior Software Engineer

- Designed and developed a rotational space management product for high-visibility retail zones (end caps, front-of-store tables), driving a 15% increase in sales-per-square-foot for the merchandising group.
- Spearheaded the architecture and development of custom rule engine which helped organization not to incur margin loss for promotional items across all selling channels which improved sales margin by 10%.
- Enforced an innovative approach to reap 40% more revenue for each category because of better planning and communication with downstream systems - supply chain, logistics.
- Created reusable Java modules for authentication, logging, and validation services and facilitated architectural review boards, technology selection processes. .

JDA Software NKA Blue Yonder | JSP, Servlets, Java 1.5, Oracle

Aug 2010 - Mar 2015, Bengaluru

Technical Consultant Intermediate

- Spearheaded customer preferences management which helped to send accurate marketing emails which in turn increased the store foot print and inquiries by 25%.
- Engineered return order management and nearby stores modules which enabled customers to buy/return products seamlessly from any channels.

Cognizant Technology Solutions | JSP, Servlets, Java 1.5, DB2

Feb 2009 - Aug 2010, Bengaluru

Programmer Analyst

- Engineered features to add customer preference attributes which helped Fujitsu POS systems to capture more details about customer and in turn assisted retailers to do targeted marketing to improve sales, store footprints.
- Participated in code reviews, automated unit testing using JUnit and managed minor enhancements, fixes as part of L3 support.

KEY SKILLS

Leadership :Team Building, Performance Management, Stakeholder Communication, Agile/Scrum, Mentorship, Capacity Planning

Languages : Python, Java, JavaScript, HTML, CSS, SQL (Oracle, MySQL, PostgreSQL, DB2) , No-SQL (MongoDB, Couchbase, Neo4j)

Cloud Platforms : Google Cloud Platform

Frameworks & Library : Spring Core, Spring MVC, Spring Reactive, Spring Boot, Spring Security, Log4j, Logback, Hibernate, Bootstrap, React.js , Angular JS, React Redux

Messaging Queues & Libraries : Apache Kafka, Rabbit MQ, Google Pub/Sub

Developer and API Tools : Git, GitHub, GitOps, Prometheus, Grafana, ArgoCD, Jenkins, Spinnaker, Docker, Kubernetes, Postman, Swagger, Jira, IntelliJ IDEA

Gen AI : Claude Code terminal, Claude skills, Github Copilot, Open Code, Frontier LLM Models, MCP, RAG, LangChain, LangGraph, Agentic AI, AI Coding agents - Cline, Cursor, Replit

Others : Apache Spark, Hadoop, Design Patterns, Rest API standards, Agile, Object Oriented Design, Microservices patterns, Event driven architecture, CI / CD, Problem solving, Maven, Gradle, Data Structures and Algorithms

EDUCATION

PES Institute of Technology, VTU, Bengaluru, India
Bachelor of Engineering in Computer Science

May 2005 – Aug 2008

PROJECTS

Registered Program Management | Application that enables financial institutions to create RPINs, Billing and Spend rules.

Dynamic Forms Automation | Application that enables financial institutions to enable online forms in real time.

Purchase Rewards | Reward program tool management for every purchase made by the financial institutions users.

Centralized Promo Management, Rule Engine | Unified rule engine to apply stacking rules across multiple channels.

Rotational Space Management | Efficient flexible space management within each stores to improve sales.

Order Management System | Enables retailers to manage all orders captured across multiple channels.

Customer relationship management | Helped POS systems to capture more details about customer to improve sales.

RECOGNITIONS

High Five Award, 2022-2023 | Candescant FKA NCR Corporation, Bengaluru

Cheers Award, 2021-2022 | Candescant FKA NCR Corporation, Bengaluru

Thank you award, 2018-2019 | Lowe's India

Lowe's Champion award, 2017-2018 | Lowe's India

Bragging Rights award, 2016-2017 | Lowe's India

GEM award, 2009-2010 | Cognizant Technology Solutions.

COURSES

Software Architecture: Patterns for Developers, 03/2025  | LinkedIn Learning

Software Architecture: Domain-Driven Design, 03/2025  | LinkedIn Learning

Apache Kafka Essential Training: Getting Started, 03/2025  | LinkedIn Learning

Architecting with Google Kubernetes Engine: Foundations, 10/2019  | Coursera

Google Cloud Platform Introduction course, 07/2019  | Coursera
